Presenting,  
our final artwork!  
😊

As a team, we have put together the **past, present and future playground** we envisioned as young artists from GMS(P) through our SYF 2021 (CAT B) art competition.

**Artist Statement:** Playgrounds are an essential part of the children's growing up years. This artwork explores how modern technology can improve the future of the playgrounds in Singapore as compared to the past and present.
