Brush Pen Calligraphy Workshop @18 June 2022

Calligraphy is an enjoyable and beautiful skill and really emphasizes on the idea of *'trust the process'*. It takes immense patience to learn how to write calligraphy properly. It was truly worth the time spent by our parents and their children and we trust that they have enjoyed the workshop.

SYF (Singapore Youth Festival) 2022 – Show Case

To all SYF participants, thank you for all your hard work and efforts. It was a wonderful experience working with you and we could tell that you have really put in the effort for this performance. As the saying goes, **“One minute on stage, Ten years of practice off the stage, “Amateurs practice until they get it right; professionals practice until they can’t get it wrong”**. We hope that you have enjoyed yourselves and we look forward to your next performance!

Snow Skin Mooncake Workshop by PSG

During this festive session, we specially organized a mooncake making workshop for families. This workshop was conducted by Feng Wen, our PSG Lead and both students and parents had the chance to learn how to make snow skin for the mooncakes, as well as how to mix different food colourings into the snow skin to make it more visually attractive. Both parents and children displayed their creativity and skills they learned from Feng Wen.

A lot of planning and efforts had gone into this event, and we are glad to receive good response for the workshops. We have received many positive feedback, too. Participants found the workshop very enjoyable, and were glad to be able to learn new skills while bonding and spending time as a family.

Mid-Autumn Comes Alive (但愿人长久 9.9)

On 9th Sept 2022, PSG supported the school in this festive event, where parents and students had the opportunity to make lanterns using recycling materials. They also participated in other activities such as story-telling , riddle guessing and mooncake and tea tasting. Through all these activities, everyone gained a better understanding into tradition of the festival.

Gardening Activity

Gardening is an excellent way for children to learn and appreciate the science and beauty of nature around them. Although it is a labour intensive job and requires a lot of effort and patience, our hard work has paid off as we see the smile on the children's faces.

P6 Glow Program

Edible Garden Anywhere Workshop, ever wonder how long it take to grow and harvest the fruits and vegetables we enjoy eating? This is workshop takes students through the process of growing edibles in tropical Singapore! We believe the students have discovered the different type of edibles and understand the requirements for planting edibles.

We would like to take this opportunity to congratulate the Primary 6 students for the great efforts they had put in for the past 6 years in GMS(P). We believe that your primary school days in GMS(P) will be part of a memorable journey for you as you embark on an exciting new adventure in your next stage of learning. As you will be making new friends in secondary schools, we hope that you will also remember the theme “To Act Justly, Love Mercy and Walk Humbly” in your relationships with new people in your secondary school.

Lastly, we would like to take this opportunity to wish all GMS(P)’ss Teaching & Support Staff, Parents and Students a well-deserved December holiday break! We look forward to seeing everyone back in school for the new learning year in 2023, as we continue the journey together to create the best learning environment for our students in GMS(P).

Yours faithfully,

**Mr. Bryan Tung, Chairman
On behalf of GMSP PSG Committee**
